LAW ENFORCEMENT YEAR 2024

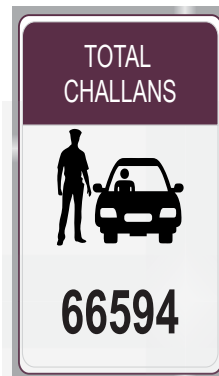

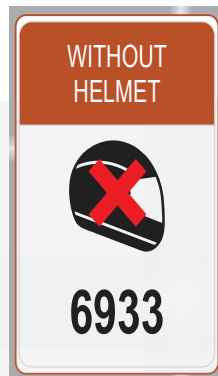

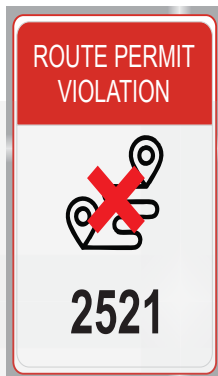

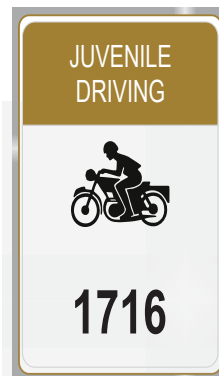

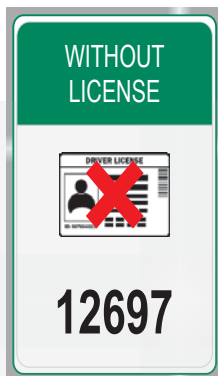

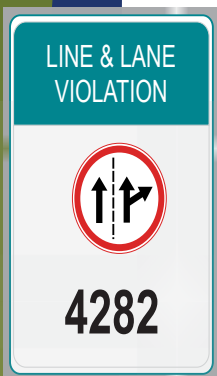

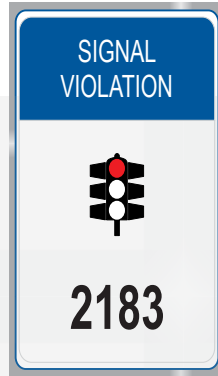

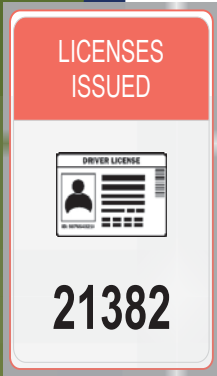

SERVICES LICENSING

PERFORMANCE OF CTP RAWALPINDI

OCTOBER-24 NEWSLETTER

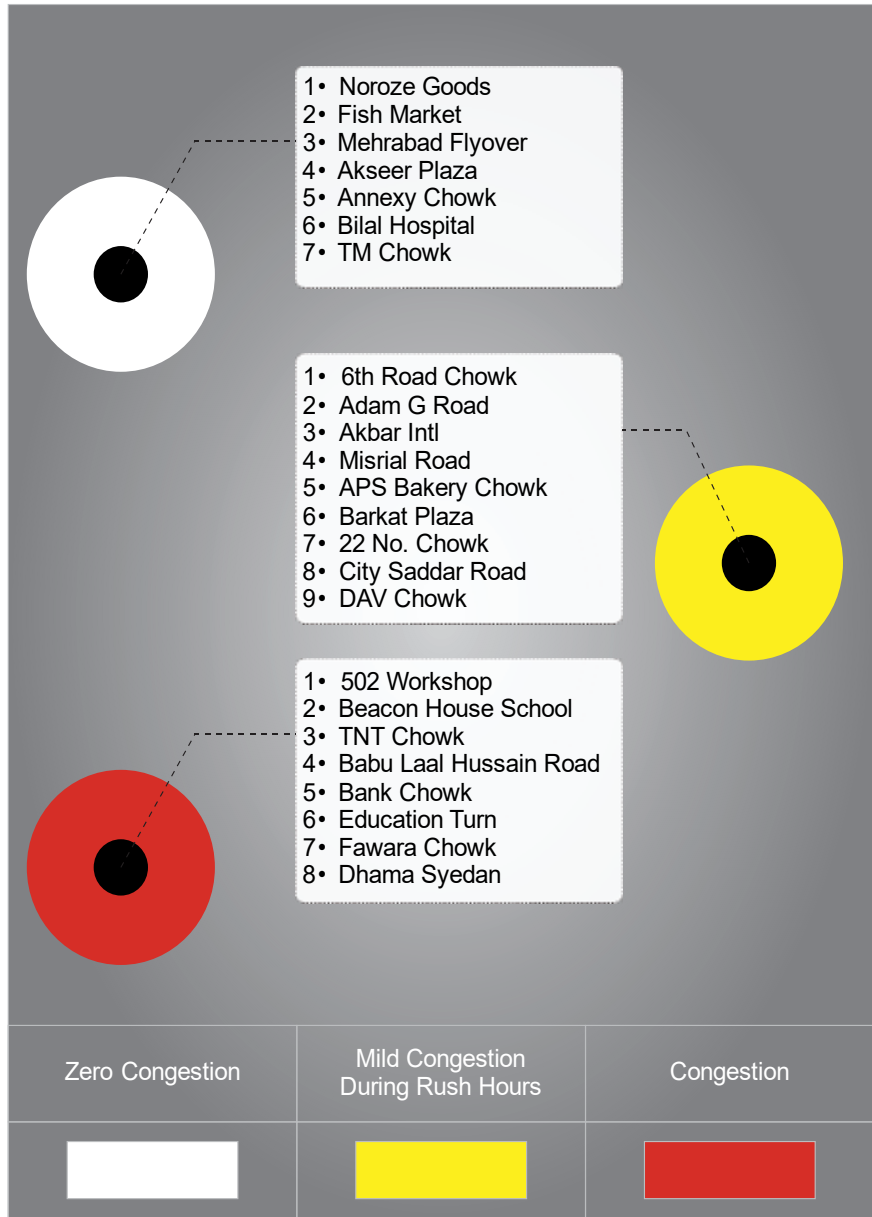

Challan Section

In October 2024, the City Traffic Police Rawalpindi issued **66594** traffic fines for various traffic violations generating revenue of **51098900** Pkr, highlighting the effectiveness of law enforcement in promoting road safety. The traffic violations on which fines are issued are **2183** signals

violations, **1076** one way violation, **4282** line and lane violations, **12697** without license, **1929** excessive smoke, **1716** juvenile driving, **1782** without fitness, **2521** rout permit violations and **6933** without helmet violations. This significant amount demonstrates the ongoing commitment of our officers to uphold traffic regulations and ensure compliance among drivers. By addressing infractions such as speeding and improper parking, law enforcement plays a crucial role in maintaining order and safety on the roads. The collected fines serve not only as a deterrent but also as a reminder of the importance of adhering to traffic laws for the well-being of all road users.

In October, the City Traffic Police Rawalpindi successfully improved traffic flow and reduced congestion at key locations such as Noroze Goods and Fish Market, Mehrabad Aghaz Flyover, Akseer Plaza, Annexy Chowk, Bilal Hospital, and TM Chowk. However, despite the ongoing efforts of the City Traffic Police Rawalpindi to manage traffic congestion, mild congestion continues to be reported at several key points like 6th Road, Adam G Road, 22 Number, and APS Bakery Chowk during school and office hours. Misrial Road, City Sadar Road, Akbar International and DAV

College are also business hubs, attracting a high volume of traffic throughout the day, further contributing to congestion in these areas.

Furthermore, some areas like 502 Workshop, Beacon House School, and Education Turn are still experiencing persistent congestion because of school and office timing. Similarly TNT Chowk, Babu Laal Hussain Road, Fawara Chowk, and Dhama Syedan are also facing problems because these areas are business hubs in Rawalpindi. It is important to note that despite of traffic congestion, no traffic jams were reported as traffic kept on flowing, however, because of huge influx it was slow. Effective traffic management strategies, including timely diversions and well-coordinated signal controls, helped maintain movement, but the sheer number of vehicles in these busy areas naturally resulted in mild traffic congestions.

License section

In October 2024, City Traffic Police Rawalpindi issued **21382** licenses including **19346** licenses of motor cycle, **1860** licenses of motor car, **34** licenses of LTV, **27** HTV, and **116** licenses of motor rickshaw special campaign. This achievement reflects the growing awareness among citizens about the importance of obtaining proper documentation for driving.

The increase in license applications demonstrates a commitment to road safety and responsible driving practices. By ensuring that drivers are adequately trained and licensed, CTP RWP contributes to a safer and more organized traffic environment. This revenue not only supports operational initiatives but also reinforces the vital role of law enforcement in promoting compliance with traffic regulations.

Our Licensing Centers and Mobile Van

The City Traffic Police Rawalpindi offers convenient locations across the region where citizens can apply for driving licenses, making the process accessible to all. The citizens can apply for licensing services at the Traffic Headquarters, Cantt Licensing Center, Shahbaz Sharif Center, and centers in Gujar Khan, Kahuta, Kallar, and Taxila. Each center is equipped to guide applicants through the licensing process efficiently. Additionally, our mobile Licensing Van provides an invaluable service by visiting various areas in Rawalpindi, bringing licensing facilities directly to the community. This initiative allows residents, particularly those in remote areas, to easily access essential licensing services, reflecting our commitment to serving the public effectively and enhancing road safety across the city.

SCO Duty

In October, the City Traffic Police Rawalpindi played a pivotal role in managing the security and traffic arrangements for the highly sensitive and high-profile delegation visiting for the Shanghai Cooperation Organization (SCO) summit. The security nature of this event required meticulous planning, as the delegation included dignitaries from various countries, requiring top-level protection and seamless coordination. To ensure the safety of all officials, the traffic police coordinated with multiple security agencies, implementing strict access control measures, designated secure routes, and heightened surveillance. Special traffic diversions were set in place to facilitate smooth movement for the delegation while minimizing disruptions to the general public. This comprehensive approach ensured that both the security and traffic management duties were carried out with precision, contributing to the successful and smooth conduct of the SCO summit in Rawalpindi.

Cricket Match Duty

In October, Rawalpindi had the honor of hosting the highly anticipated Pakistan-England Test cricket match at the Rawalpindi Cricket Stadium. The City Traffic Police played a crucial role in ensuring the smooth flow of traffic and the security of attendees during this high-profile event. The efficient handling of both traffic and security was vital in ensuring that the match proceeded without disruption, highlighting the City Traffic Police's commitment to managing large-scale events with professionalism and care.

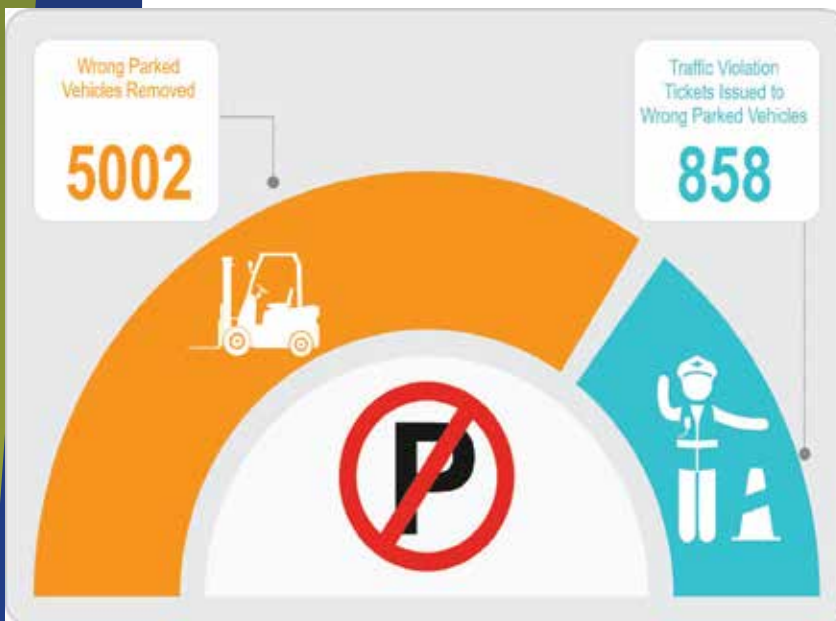

Regulation of No-Parking on Main Roads

Major main roads are designated as no parking zones in Rawalpindi to ensure smooth traffic flow and enhance safety for all road users. Individuals wishing to park their vehicles are encouraged to utilize nearby parking plazas, which provide safe and convenient options. In cases where parking is absolutely necessary, parallel parking is permitted as long as it is done away from the yellow line markings on the road and for minimal time. This approach helps maintain clear passage for vehicles while accommodating the parking needs of the community, contributing to a more organized and efficient urban environment.

NO OF VEHICLES REMOVED IN NO PARKING

In a recent enforcement operation in October 2024, a total of **5002** vehicles parked in no parking zones have been removed by our dedicated lifter teams. By promptly addressing violations, we aim to ensure that traffic flows smoothly and that the risks associated with improper parking are minimized. The removal of these vehicles not only helps prevent congestion but also reinforces the importance of adhering to parking regulations for the overall safety of the community.

"The recent decision to designate Mall Road as a no parking zone is a crucial step toward improving traffic flow and enhancing safety in this busy area. With the increasing number of vehicles, it became clear that allowing parking was causing significant congestion and hindering the movement of traffic. This no parking policy will not only help ensure that the road remains clear for both vehicles and pedestrians, making it safer for everyone, but it will also bring a good image and beautification to the area, creating a new look for visitors and buyers.

We've implemented clear signage to inform the public about this change, and we are also increasing patrols to enforce these regulations. I believe that this initiative will not only improve the overall traffic situation but also enhance the experience for visitors to Mall Road. This shift represents a paradigm change that will boost economic activity and contribute to a better environment.

We urge the public to cooperate with this new policy and utilize nearby parking facilities instead. Our goal is to create a more organized and accessible environment, and we appreciate the community's support in making this change successful. Together, we can foster a safer and more efficient Mall Road for all".

FINES OF OVERLOADED SCHOOL VANS

The Chief Traffic Officer Rawalpindi has taken a proactive initiative to address the safety concerns surrounding overloaded school transport. By issuing fines to vehicles carrying an excessive number of school-going students, CTP RWP aims to promote safer travel practices for children. This measure highlights the potential dangers of overcrowding in school vans and buses, which can jeopardize the safety of young passengers. Through this enforcement action, we are committed to ensuring that all students are transported in a safe and responsible manner, fostering a more secure environment for our future generation.

INDUCTION OF TWO NEW SCOOTIES IN WOMEN ON WHEEL PROJECT

**OCTOBER-24
NEWSLETTER**

The City Traffic Police Rawalpindi has recently added two new scooters to its fleet specifically for the Women on Wheels bike training program in October. With these new scooters, trainees will have the opportunity to practice on modern, user-friendly vehicles that cater to their needs. This initiative not only enhances the train-

ing experience but also supports our goal of promoting greater mobility and independence among women in the community.

We are excited to announce the expansion of our Women on Wheels bike training program with the launch of a new training center specifically for ladies at the Divisional Girls Guide Center on Said Pur Road. This initiative aims to empower more women by providing them with the skills and confidence to ride motorcycles safely. By offering accessible training in a supportive environment, we hope to encourage active female participation in biking, promoting independence and mobility. This new center is a significant step forward in our ongoing commitment to fostering inclusivity and enhancing the lives of women in our community.

MONITORING OF PSV VEHICLES

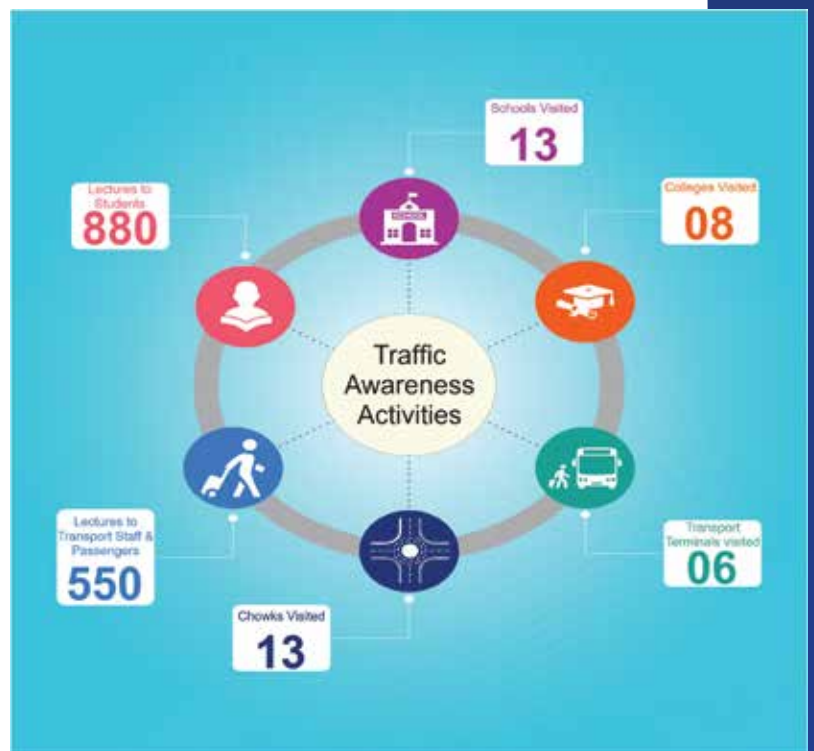

In October 2024, the City Traffic Police Rawalpindi launched a focused initiative to enhance road safety and regulatory compliance. Extensive checks were conducted on vehicle fitness certificates, seating capacity, PSV licenses, and route permits to ensure that all public service vehicles met safety and legal standards. This proactive enforcement aims to protect passengers and promote safe travel within Rawalpindi, reflecting the department's commitment to community welfare and road safety.

**EDUCATION & AWARENESS
CAMPAIGN**

In the month of October, the Traffic Education Wing of Rawalpindi's City Traffic Police conducted a series of visits to schools, colleges, and public places across the city to promote road safety and traffic awareness. In addition to road safety awareness, the Education Wing expanded its outreach by delivering crucial lectures on smog prevention and dengue awareness, particularly at transport terminals. The lectures focused on the significance of avoiding exposure to air pollution during smog season and the importance of cleanliness and mosquito control to prevent dengue. By reaching out to commuters at key transit hubs, the Traffic Education Wing played a vital role in spreading knowledge on how to protect public health while also ensuring road safety.

ANTI ENCROACHMENT CAMPAIGN

OCTOBER-24 NEWSLETTER

The City Traffic Police Rawalpindi's anti-encroachment squad achieved remarkable success in October by clearing encroachments in the Cha E Sultan, Raja Bazar and Old Market areas. These areas, previously congested due to illegal parking and business-related encroachments, were transformed, leading to smoother traffic flow and better accessibility. The squad's diligent efforts not only resolved the persistent issue of wrong parking but also restored order, benefitting both

local businesses and commuters. Building on this success, our focus in November will shift to other high-traffic zones, including Hathi Chowk, Range Road, and Misrial Road. We are committed to maintaining these improvements and expanding our efforts to ensure a more orderly and efficient traffic environment across the city.

REWARD FOR DEDICATED SERVICE

In recognition of exceptional performance and dedication, our Chief Traffic Officer recently awarded a total of **206,000** PKR and **109** CC3 as rewards to the staff. The staff who received this award includes **33** senior traffic wardens, **61** traffic wardens, and **15** senior traffic assistants and traffic assistants, all of whom have demonstrated outstanding commitment to their roles. These rewards not only acknowledge their hard work and contributions to maintaining road safety but also serve to motivate the entire team to continue

striving for excellence. By investing in our personnel, we reinforce our commitment to fostering a culture of recognition and appreciation within the City Traffic Police Rawalpindi.

OCTOBER-24 NEWSLETTER

COMPLETION OF PROJECTS

TRAFFIC HQRS GATE

In October 2024, CTP RWP is proud to announce the installation of a new gate at the City Traffic Police Headquarters in Rawalpindi, marking a significant upgrade in security and accessibility. This modern gate not only enhances the aesthetic appeal of the facility but also incorporates advanced technology to streamline entry and ensure safety for both officers and the public. Designed with durability in mind, the gate reflects our commitment to improving operational efficiency and public service.

SOLAR KIOSK KACHEHRI

The City Traffic Police Rawalpindi has constructed a new solar-operated kiosk at Kachahri Chowk, one of the busiest intersections in the city. This innovative kiosk is designed to enhance operational efficiency and provide essential services to both the public and traffic officers in the area. Utilizing solar energy, it promotes sustainability while ensuring that our personnel have access to necessary resources in a high-traffic environment. The kiosk will serve as a hub for information, assistance, and traffic management, reflecting our commitment to leveraging modern technology for improved service delivery and public safety in Rawalpindi.

UNDER CONSTRUCTION PROJECTS NEW CANTEEN

In October 2024, CTP Rawalpindi proudly unveiled the newly constructed canteen at the City Traffic Police Headquarters in Rawalpindi for enhancing the well-being and morale of our staff and public. Designed for comfort and efficiency, it provides a welcoming space to relax and recharge.

CTP RWP'S CAMPAIGNS FOR HEALTHIER TOMORROW

ANTI-SMOG

With smog season approaching, the City Traffic Police Rawalpindi has intensified vehicle inspections to reduce harmful emissions. Officers are conducting thorough checks on vehicle smoke levels to ensure compliance with environmental standards and minimize air pollution. By targeting smoke-emitting vehicles, the department aims to reduce smog's impact on public health and create a cleaner, safer environment for all.

ANTI-DENGUE

In October 2024, the City Traffic Police Rawalpindi launched an anti-dengue campaign aimed at raising awareness and preventing the spread of the disease. Our staff conducted informative sessions in schools, colleges, and at various public places, educating community members about dengue prevention and the importance of maintaining clean environments. Additionally, the teams visited workshops near roads to inspect for potential breeding sites and to encourage proper waste disposal practices.

VACCINATION OF HEPATITIS-B AT TRAFFIC HQRS.

In an initiative to safeguard the health and well-being of our personnel, the Chief Traffic Officer of the Rawalpindi City Traffic Police Department has organized a hepatitis B vaccination drive for all staff members at Traffic Head Quarters Rawalpindi. This proactive measure underscores the department's commitment to ensuring a healthy workforce, particularly given the demanding nature of our roles in managing traffic and public safety.

Introduction of Foldable Barriers

In a remarkable display of resourcefulness, the City Traffic Police Rawalpindi's MT (Mechanical Transport) branch took on the challenge of creating foldable barriers for efficient traffic management. While similar barriers cost approximately **400,000** PKR each in the market, our MT staff devised an innovative, cost-effective solution, producing these barriers for only **40,000** PKR each.

Introduction of New Modern Cones

To further enhance traffic management and ensure smoother road operations, the City Traffic Police Rawalpindi recently acquired **100** modern traffic cones. These cones, designed with high-visibility colors and durable materials, will improve lane management, especially in high-traffic zones and during peak hours.

Distribution of New Rechargeable Electric Rods

In October, the City Traffic Police Rawalpindi took proactive steps to enhance night visibility and safety by equipping our staff with new rechargeable electric rods. The rechargeable feature ensures sustainability and long-term use, reinforcing our commitment to providing our personnel with the latest tools to manage traffic efficiently, regardless of the time or conditions.

Induction of new 200 Wireless Sets

In October 2024, the City Traffic Police took a significant step forward in enhancing operational efficiency and safety by issuing **200** wireless sets, light rods, and reflective jackets to our personnel.

Distribution of 500 Reflecting Jackets

In October, the City Traffic Police Department introduced **500** high-visibility reflector jackets for its staff to enhance safety and visibility, particularly during night shifts and in low-light conditions.

Zulfiqar Ali

Traffic Warden **Zulfiqar Ali** is a passionate music enthusiast who has dedicated himself to mastering the sitar, having undergone professional training in this classical instrument. Despite the demands of his role in the City Traffic Police Rawalpindi, Zulfiqar continues to nurture his musical talents, showcasing his commitment to balancing his professional responsibilities with his love for music. His dedication not only enriches his life but also contributes to the cultural vibrancy within the department.

Muhammad Usman

Traffic Warden **Muhammad Usman** is a versatile athlete who began his sports journey with cricket and hockey, show his skills and passion

on the field. Over time, he developed a keen interest in badminton, where he quickly excelled, winning numerous departmental competitions. Usman's dedication to mastering new sports highlights his competitive spirit and adaptability, qualities that also enhance his commitment to his role in the City Traffic Police Rawalpindi.

Inam Shabbir

Traffic Warden Inam Shabbir is a remarkable talent with a longstanding passion for sports, including martial arts disciplines like kung fu, boxing, and mixed martial arts, along with hockey, rugby, and foot-

ball, competing at provincial and national levels. Notably, he captained the Rawalpindi Rugby team in the Punjab Games, showcasing his leadership and teamwork. Despite his demanding role in the City Traffic Police Rawalpindi, Inam continues to pursue his passion for sports alongside his duties, embodying dedication, resilience, and the spirit of discipline that enrich his service to the department.

SP Beenish Fatima wins laurels
By Our Staff Reporter

RAWALPINDI: Chief Traffic Officer (CTO) Rawalpindi Superintendent of Police (SP) Beenish Fatima was honoured with a global award by the International Association of Chiefs of Police (IACP) in recognition of her professional services as a police officer.

She was bestowed with the honour during the IACP conference held in Boston, US, says a press release.

SP Beenish Fatima has proved with her hard work and skills that Pakistani women can show their talent at the global level.

The IACP 2024 Award is a global recognition of the leadership skills and professional services of police officers.

According to a police spokesman, SP Beenish Fatima is the only Pakistani woman officer who has received this honour representing the entire country.

IG Punjab Dr Usman Anwar congratulated SP Beenish Fatima on this achievement, and said she was a valuable asset not only of Punjab police but also of Pakistan.

The IG Punjab further said such talented officers would play an important role in police leadership in future.

The International Association of Chiefs of Police is the world's largest organisation that recognises leadership qualities of police officers, and each year the best police officers under the age of 40 are selected for this award.
